### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert H. Berdo, Jr. on 12/22/04.

2. The application has been amended as follows:

- Claim 1, line 34, delete "due to, for example, losing a power supply"

3. The following is an examiner's statement of reasons for allowance:

Applicant has claimed uniquely distinct combination of features in the instant invention. They include "the LED lamps provided on said master and said secondary controller becoming on at the same time as soon as said master signal receiver does not receive a signal transmitted from said secondary signal transmitter". These features are not found or suggested in the prior art.

The closest prior art, Desch (US 6,078,260) discloses method and apparatus for keeping track of children comprising two transceiver units which communicate wirelessly, and Narcisse (US 4,675,656) disclose out-of-range personnel monitor and alarm for alerting an attendant in the home that a supervised person has walked beyond a predetermined prescribed distance, either singularly or in combination, fail to anticipate or render the above limitations obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
